

Krutrim Insights

Dont Compete with AI. Collaborate with it - with us

FROM LEARNING TO BUILDING

**CREATE
REAL WORLD PROJECTS IN
AGENTIC AI, DATA ANALYSIS
& AUTOMATION**

Prepared By

Krutrim Insights

WHO WE ARE

Krutrim Insights is an AI training platform built for students and professionals who want to do more than just learn

about AI — they want to build with it. We run small-batch, project-first programs in Agentic AI , Generative AI and

Data Analytics where every student leaves with something real to show: a working project, a stronger portfolio, and a clearer career direction. We don't believe in passive learning. We believe in getting your hands dirty with actual data, actual tools, and actual problems that companies care about.

WHY FORWARD- THINKING COLLEGES ARE ACTING NOW

India needs 1 million AI-skilled professionals by 2026 — the demand is already here

Students with real project experience get placed faster and at higher packages

Colleges that offer industry exposure stand out in rankings, reputation, and student outcomes

This seminar is one step towards making students industry-ready."

ABOUT THE SESSION

<u>Duration</u>	<u>Format</u>	<u>Audience</u>
70–90 Minutes	Live Project Building + Q&A	Students of IT

- Students will witness a real AI-powered data project being built live — from raw data to insights to decisions
- No prior coding experience required
- Fully interactive with a Q&A round at the end
- Certificates of Project Building will be provided to students who successfully build the project

SESSION FLOW

	Module	Time
1	AI in the Modern Data Landscape	10 min
2	From Data to Decisions — The AI-Powered Approach	10 min
3	Live Demo: AI Projects and Smart Agents	10 min
4	Live Project Building — Raw Data → Insights → Decisions	30min
5	Portfolio & Career Positioning	10 min
6	Interactive Q&A	10 min

The core of the session is a live, hands-on demonstration — not slides, not theory

WHAT WE'LL BUILD LIVE IN THE ROOM

PHASE 1- Creating your AI Dashboard

Step 1	Step 2	Step 3	Step 4
Upload Any Dataset	Auto Visualisation	AI Generates Insights	Insights Hit Your Inbox
Students bring or pick a dataset - any domain, any industry	The tool build will instantly visualises the data- charts, trends, pattern	AI analyses the visuals and generates business insights automatically	A full insights report lands directly in your email- no manual work

By the end — you'll have an AI-powered analytics tool that works on any dataset and delivers insights straight to your email.

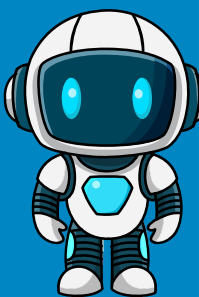

WHAT WE'LL BUILD LIVE IN THE ROOM

PHASE 2- BUILDING YOUR AI AGENT

Step 1	Step 2	Step 3	Step 4
Set Up N8N	Connect Your Data (Google Sheets)	Add AI Power (API Integration)	Build Your AI Agent (Automation)
• Open N8N (no-code automation tool) • Sign up using free trial • Access your workflow dashboard	• Upload the dataset to Google Sheets • Link Google Sheets with N8N • Prepare data for automation	• .Generate your API key (OpenAI / LLM) • Connect AI to your workflow • Enable AI to analyze and process data	• Create an automated workflow • AI reads data → generates insights • Send results automatically to Gmail

By the end — you'll have an AI Agent tool that works on any dataset and delivers insights straight to your email.

WHAT STUDENTS WALK AWAY WITH

AI AGENTS

You've built an actual AI- Agent
not a tutorial, not a copy-paste.

Certificate of Project Building

Issued by Krutrim Insights -
recognising you built a real,
working AI project

Portfolio Piece

Something concrete to show
recruiters and add to your
resume

INSTITUTIONAL REQUIREMENTS

- Seminar Hall / Auditorium
- Projector / LED Screen
- Sound system with mic & speakers
- Laptop connection setup (HDMI/VGA)
- Stable internet connection
- Basic technical support during setup
- Coordination support for student communication

BRING THIS TO YOUR CAMPUS

ONE SESSION. REAL SKILLS. LASTING IMPACT.
